And What Have You

By BOB CRAIG

Don't forget to attend the BCD Banquet tonight!

The Hamlin basketball teams finished up the first round of action in the District 7-AA basketball schedule here Tuesday evening and will start the second round at Stamford Friday.

The district has always played a double round robin schedule but this is the first year that the race has been divided into two clear cut rounds. A team's record for the first round does not carry over into the second round.

Since this is being written on Monday and I do not know the final out come of the Tuesday night games, I will assume for purposes of explanation, that the boys' race ended up in a three-way tie as it was after the games Friday.

If this is the case and anyone of these three teams win the second round they will be the district winners. But if two of these teams tie in the second round they will have a playoff to determine the winner and if all three teams tie again they will all be in the playoff to determine the winner. But if a fourth team wins the second half, then the three tying teams of the first round will play to determine the winner of that round and then will meet the winner of the second round to decide the district.

This has several advantages. Among them are: no team gets so far behind in the first round that they are out of the race in the second half, and the best team at the end of the season should be the district winner.

In the case of the girls' race it means that although Anson is out in front after the first round, the Piperettes can still come back and win the second round and get into a playoff with Anson for the title.

Under this plan the district race should stay exciting right down to the end rather than having some teams just about out of the race by the time the second round gets started.

I ran across the following in the Graham News this week and I suspect that it fits just about all newspapers, I know that at one time or another we have heard these questions here at the Herald.

"Please put it on the front page."
"Use the story just as I have written it. The club wants it that way for the scrapbook."

"How come it wasn't in the paper? It was? Well I didn't see it. Will you please go through the back copies and tear it out for me?"

"We voted to make you our club publicity chairman."

"I know you have a deadline, but couldn't you just squeeze this little item in?"

My husband has never been in trouble before, so I don't think his name should appear in the paper for drunk driving and hitting that nasty policeman. Besides, he had only a couple of beers. And there are the children to think about."

"My uncle's brother is one of your biggest advertisers, and I was wondering if..."

"You ran the car wreck picture, but you didn't run my first wedding anniversary picture."

"If there wasn't any room for the other picture, why couldn't they run it on another page?"

"I know that this is a public meeting, but I would like to talk off the record."

"I'm in the market for some used furniture. Is there any way I can get the classified section Tuesday night?"

"I'm opening a new business and I'd like to have a story on it in the society section. I can't afford any advertising right now."

"I want to read the story before you publish it."

Mr. Kilbreth's leadership has been proven over 30 years in every size and type of church.

Subjects to be discussed include the following topics: How to double your attendance and eliminate absenteeism; How to be a teacher worth knowing; What are the road blocks and barriers to Sunday School growth today; The greatest discovery that I ever made in Church Leadership; What are the symptoms of a sick Sunday

School?; Seven keys that will keep a Sunday School growing; and Get the shock of your life.

Mr. Kilbreth will be speaking at all services at the regular times on Sunday. Monday, the local service will be dismissed for the area-wide Evangelism Conference to be held in First Baptist Church in Stamford at 7 p.m.

FORTY-THREE YEARS AGO
(January 18, 1929)

The Hamlin Post Office now serves more than 7500 people, and the year 1928 had an increase in business over 1927 of more than \$2500. It is stated by Postmaster Rowland that the office serves more than 230 miles of rural routes and delivers mail to 3696 persons on these routes, while more than 3500 are served in the city.

The receipts of the office have reached the amount where it is possible for Hamlin to have free mail delivery to the city. The necessary steps to obtain the delivery is that the streets be marked, houses numbered and more sidewalk laid. The increase in the business of the office makes it necessary that some such step be taken to relieve the burden that has fallen on the employees, and thus make better service possible.

The Hamlin Chamber of Commerce will hold their annual banquet Friday night, January 25, and every member and citizen of Hamlin is urged to be present and bring a farmer friend with him.

At this meeting there will be a discussion of the things that have been accomplished by the Chamber during the past year, and plans made for the work that is to be done during 1929. This is a meeting that is of vast importance to the citizens of Hamlin and the farmers in our trade territory and should have one hundred percent attendance.

If you miss this meeting you will miss the most important meeting of the year. Be present.

All Community clubs and P.T.A. of the entire country are very cordially invited to attend an all day rally to be held at Boyd's Chapel School House on Tuesday, January 22.

Everybody bring their own lunch and come prepared to spend the entire day as the program will begin at 9:30 a.m. and end about 4 p.m. with a basketball game.

TEN YEARS AGO
(January 18, 1962)

Final plans for the Hamlin Board of Community Development's annual banquet Friday night at 7:30 at the High School Gymnasium have been completed and a crowd of around 400 is expected to be in attendance to hear Glenn Scott, science demonstrator for Southwestern Bell Telephone Laboratories science program, "Voices Across Time and Space."

At a meeting of the board of directors Tuesday morning it was decided to permit students to the program following the meal free of charge.

The meal will be served by the Hamlin School Cafeteria and dinner music will be furnished by Joe Hudspeth's.

Tickets are available from several sources around town and are priced at \$2.50 per plate.

Floyd Clifton has been elevated to the position Executive Vice President of the Farmers and Merchants National Bank at a recent meeting of the Board of Directors. He was formerly Vice President of the organization.

An open meeting of the Hamlin Ex-Student Association will be held Monday at 6:30 p.m. at the telephone company office.

A letter published in the Hyati, Missouri, Herald, makes this point and illustrates, as the editor put it, "...one of the better days in the life of a weekly newspaper publisher."

The letter says, "Dear Editor: Please send me a free copy of your newspaper containing the obituary of my aunt. Also publish the enclosed clipping of the marriage of my niece. And I wish you would mention in your column, if it doesn't cost anything that I have two calves for sale and that our church is having a chili supper Friday night and the tickets are only 75 cents. As my subscription has expired, please stop the paper as I can't waste money on newspapers. — Ex-Subscriber."

Neinda Philosopher Gets Off On the Big Literary Hubbub Over A Book

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One may be getting in over his depth this week, but it's probably not the last time.

Dear editor:

A book-reading friend of mine has spent considerable time lately trying to figure out the great Howard Hughes mystery, whether the biography coming out about him is authentic and whether that was Hughes on the telephone with all those reporters denying he'd ever heard of the man who wrote the book.

What this friend doesn't understand is that the selling of snake oil cuts across all levels of society. Whether you're selling patent medicine from the back of a covered wagon or in front of a T.V. color camera via satellite, the ingredients remain about the same and the percentage of suckers remains unchanged. If you're selling

books, the vocabulary of the audience widens but the gullibility percentage remains constant. This is known as the first law of human nature.

According to an article I remember reading in a newspaper a few weeks ago, there were 35,000 different books published in the United States last year, or nearly 100 a day. Since this is many times more than any one person could read in a lifetime even if he didn't watch television, slept very little, and didn't even subscribe to the Herald, naturally the few books that do get bought in the thousands require some of the selling techniques inherited from the men who sold from the backs of covered wagons.

If the writer who said he interviewed Mr. Hughes in cars all around the country really did, it looks like some fingerprints would have been left somewhere. If Mr. Hughes really wanted to remove all

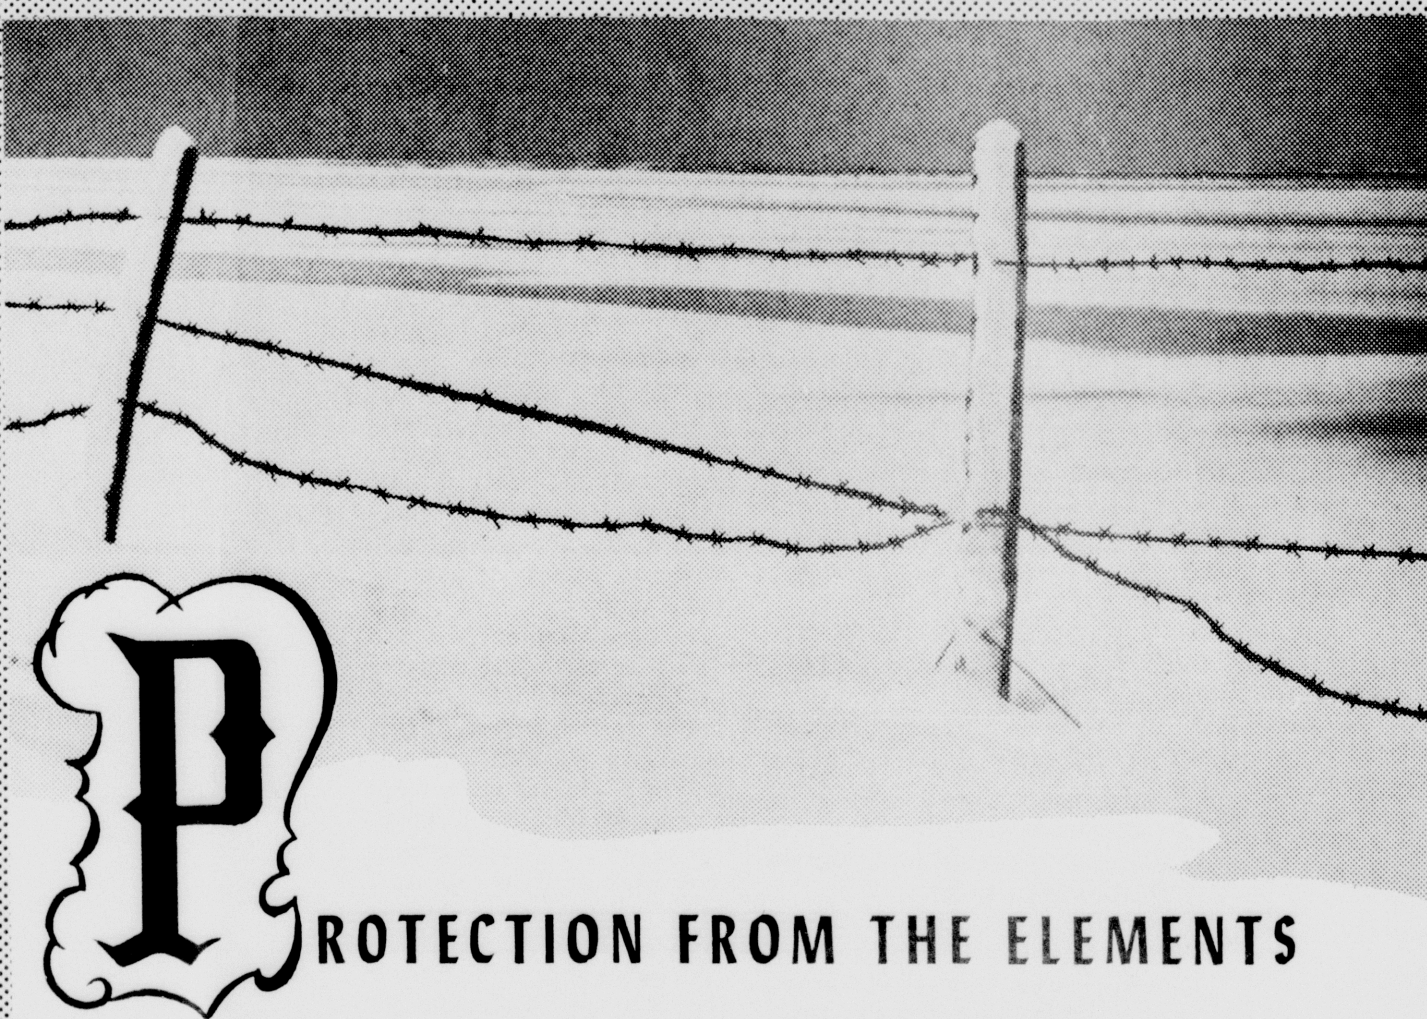

doubt from his denying the interviews took place, all he'd have had to do was speak via television or in person instead of by telephone.

I don't usually get off on such literary topics as this, and for all I know everything may be on the up-and-up in this matter, but it is well to remember that flim-flammy is an ancient art not limited to politics and international affairs, and the more advanced man becomes the better it works.

Where can I get hold of a copy of this Hughes book?

Yours faithfully,
J. A.

SHORT SNORTS
Governor Smith is considering a recommendation for a statewide food stamp program which would call for about \$17 million in state aid to counties and would produce \$286 million in federal assistance for the needy.

PROTECTION FROM THE ELEMENTS

It has been said in the Lone Star State that there is nothing between Texas and the North Pole but a barbed wire fence. That certainly gives you the idea that in Texas you're not given much protection from the cold North wind.

There are times when you might think there is no protection and comfort afforded from the hardness and cruelty of the world. But there is a buffer between you and the world. This help and protection is the church. As members of the church, you are with good people of like minds who love you, pray with you, comfort you and assist you. They are the ones who "by love serve one another." (Gal. 5:13)

We invite you to attend the church of your choice this week. You will find a warm welcome there.

"And this commandment we have from him, that he who loveth God love his brother also."

1 John 4:21

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

\$14 Million Farm Income Projected for County In '76

Cash income to farmers and ranchers in Jones County should be more than \$14,000,000 by the end of 1976, according to Kirby Clayton, County Agricultural Agent.

This will be an increase of more than 1.6 million from 1968-69 figures, with beef cattle, cotton and grain sorghum contributing a large part of the gain. The projections are based on studies of the Texas Agricultural Extension Service and are part of the "3.76 in '76"

program, a state-wide project to increase Texas agricultural cash receipts by more than \$1 billion.

Total cash receipts from all agricultural enterprises in Jones County are presently estimated at 13.3 million dollars, says Kirby Clayton. The most important ones are cotton, grain sorghum, and cattle. They are expected to account for about 90 percent of the projected 1976 totals.

The county will be aided in its production efforts by the Rolling Plains Program. Extension specialists will hold

conferences in the Jones County on January 24 to discuss improved production of livestock and crops.

These projections are based on estimates from the Jones County Extension Program Committee after separate predictions were made by Extension district and economic area in Texas.

"Jones County producers will have access to production information and techniques that can help spell success for the Texas goal on \$3.76 billion in 1976," says Clayton.

Exemptions Now In Effect For Farm Vehicle Drivers

AUSTIN—Texas Agriculture Commissioner John C. White has reminded Texas farmers and ranchers of revised driver qualification regulations which should give significant relief from the stringent regulations that were in effect in 1971.

New exemptions were made for farmers and ranchers by the U. S. Department of Transportation after many complaints were filed against restrictive farm driver qualification regulations last year.

The new regulations which became effective January 1 include:

1. Farm vehicle drivers operating trucks weighing 10,000 pounds or less are totally exempt from the driver qualification rules.
2. Farm vehicle drivers operating straight trucks weighing in excess of 10,000 pounds within 150 miles of their farms are totally exempt from the rules.
3. Farm vehicle drivers 18 years or older operating a tractor-trailer unit within 150 miles of the farm are exempt, except that they must be physically qualified but need not be physically examined and certified until January 1, 1973.
4. Drivers employed by custom operators are granted total exemption while transporting custom harvesting machinery to or from a farm and while transporting the custom-harvested crops to storage or market.
5. Beekeepers transporting bees during seasonal movements are exempt.

The original regulations requiring drivers to be 21 years of age, submit to road tests, written and physical

examinations, background checks and other regulations imposed undue burdens on farmers whose families helped in growing and harvesting crops, Commissioner White said.

USDA Puts More Restrictions On Diethylstilbestrol

The U. S. Department of Agriculture has placed additional restrictions on the use of diethylstilbestrol (DES), a synthetic growth promoting hormone used in livestock feed. The new ruling became mandatory on January 8, according to Jones County Agent Kirby Clayton.

Under the new program federal meat inspectors will hold all cattle and sheep from slaughter at least seven days unless the animals are certified as not having been fed DES or as having been withdrawn from DES at least seven days before slaughter.

According to Clayton there are three alternatives for handling cattle and sheep at slaughter:

1. The animals may be slaughtered if certification requirements have been met.
2. The animals will be held alive for the required seven days.
3. The animals could be slaughtered, with samples sent to a U. S. Dept. of Agriculture-approved laboratory for testing. Meat from the animals could not be marketed until tests prove they are free of DES residues.

The new program will help provide further assurance that DES residues will not be found in the nation's meat supply, says Clayton. Violators will be subject to criminal prosecution by the Food and Drug Administration.

Houston Land Bank Sets New Record In Loans

Joe Harper, Manager of the Federal Land Bank Association of Haskell, announced today that The Federal Land Bank of Houston closed more than 100 million dollars in loans during 1971.

The previous record for loans closed in a single year was set in 1965 when the Bank closed more than 94 million dollars in loans.

"Farmers generally have been a little more optimistic this year, a little more confident of the agricultural economy", Harper stated. "Then too, the number of land sales are up somewhat this year over last year." Next year will also be a big year, Harper predicts. "By midyear we will have the new Farm Credit Act implemented. This will permit us to lend more money in some instances and will also broaden the scope of our loan service to agriculture in other respects," he stated.

The Federal Land Bank of Houston makes farm and ranch real estate loans throughout Texas and on December 30 had more than \$75 million dollars in loans outstanding to over 35,000 farmers and ranchers. The local association makes and services loans in Haskell, Jones, Baylor and Knox counties.

Officers and directors of the association are O. G. Lewis, President, Rule; J. E. Nix, Vice President, Anson; E. H. Burnett, Haskell; Weldon Walker, Stamford, Texas; J. P. Jones, Munday; Ralph Howe, Seymour; Felix Copeland, Asst.

THE FAMILY LAWYER

Killer Kite

"Kite weather" sent eight-year-old Jimmy into an open field to try his luck. Using a thin copper wire for a string, he soon had his box kite scudding into the sky.

Then, tragedy. Jimmy's kite crossed a high-tension power line and deadly voltage crackled downward, killing him instantly.

Could the power company be held legally liable by the boy's family? In a court hearing, they blamed his death on the fact that the high-tension line had not been insulated.

However, the court held the company not responsible. The judge said Jimmy's use of copper wire instead of an ordinary string was too unusual to have been foreseen and guarded against.

Courts generally agree that power companies cannot be expected to take precautions against freak accidents. Nevertheless, since electricity is such a dangerous product, they do carry a higher-than-average burden of responsibility.

In another case, a boy's kite snagged on a power pole. When he climbed the pole to retrieve his kite, he touched an uninsulated line and suffered a bad burn.

This time, three factors weighed against the company:

- 1) that the pole was right next to a playground;
- 2) that it had low steps, easy for children to climb; and
- 3) that no DANGER signs had been posted.

A court duly awarded damages to the injured boy, saying that the company could fairly have foreseen this kind of an accident.

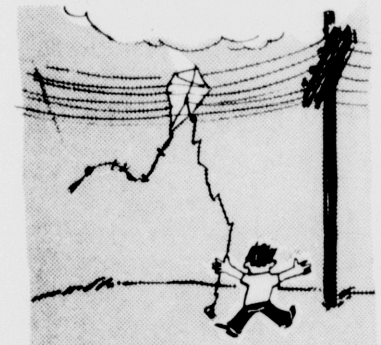

And tree climbing is even more foreseeable than pole climbing. Thus:

A boy got a shock from an uninsulated wire that passed through the upper branches of a tree in front of his house. Sued later for damages, the power company pointed out that there was nothing in the tree—no snagged kite, no frightened kitten, no tempting fruit—that would justify the boy's venture into the treetop.

But the court held the company liable anyhow, for misjudging human nature.

"The immemorial habit of small boys to climb trees," said the court, "is a habit which corporations stretching their wires over such trees must take notice of."

AUSTIN — An interesting political poll was taken at the Gulf Coast Press Association's board of directors' meeting in Houston January 8. Fourteen newspaper publishers were asked: "Who do you think will win the 1972 Governor's race in Texas?"

Seven said Lt. Gov. Ben Barnes, four named Dolph Briscoe and two listed Gov. Preston Smith.

The same editors were asked about their vote.

Eleven voted for Dolph Briscoe, two for Lt. Gov. Ben Barnes and one for Governor Smith.

SENATE CAMPAIGN — The 1972 political campaigns moved into full swing with announcement by former U. S. Sen. Ralph W. Yarborough that he would make a comeback try for a Senate seat.

Yarborough, 68, revealed his plans in a series of whirlwind news conferences at Austin, Houston, Dallas, Fort Worth and San Antonio. He seeks the Democratic nomination to oppose Republican Sen. John Tower.

Barefoot Sanders of Dallas, already running for the Senate as a Democrat, welcomed onetime political ally Yarborough to the race as "one of our fine senior citizens." He said both Yarborough and Tower "are out of touch with the majority of Texans."

Yarborough said he had never had so successful a campaign opening day. He stressed his nearly-14 years' experience as a progressive senator, and said in answer to questions about his age: "I'll be around campaigning as long hours as anybody else if not longer."

The former senator's entry took some of the spotlight away from the warming governor's race where Gov. Preston Smith, Lt. Gov. Ben Barnes and Uvalde rancher Dolph Briscoe are starting to mix it up.

Five Democratic candidates are moving around the state in the lieutenant governor's race.

Treasurer Jesse James, Comptroller of Public Accounts Robert S. Calvert and Commissioner of Agriculture John C. White during the last week announced for re-election. Calvert and James are expected to draw some opposition.

State Rep. Frances Farenthold of Corpus Christi announced she is "taking a serious look" at prospects for a gubernatorial race, but has not ruled out challenging Atty. Gen Crawford Martin.

SCHOOL DECISION APPEALED — The State Board of Education voted unanimously to appeal the monumental federal court decision that the Texas property tax method of financing schools is unconstitutional.

Social Security Requirements Listed For People Reaching 65 this Year

Most men who reach age 65 in 1972 can collect monthly social security checks if they have worked as little as 5 1/2 years in jobs covered by social security. Women who reach 65 in 1972 generally can get monthly retirement checks after only 4 1/2 years or more of work.

"You earn social security retirement payments by credit for work you've done beginning in 1937, the year social security started," a social security spokesman said. "To be eligible for retirement benefits, a man needs 3/4 of a year more work credit than a woman," he said.

Social security work credit is measured in calendar quarters — January-March, April-June, July-

September, or October-December.

Most employees get credit for a quarter of work if they are paid \$50 or more any time in that quarter for work covered by social security, the spokesman said. Most self-employed people get social security credit for 4 quarters in any year their annual self-employment net income is \$400 or more.

Today, more than nine out of 10 jobs in paid employment and self-employment are covered or eligible for coverage under social security.

"To be eligible for social security retirement benefits," the spokesman said, "a man needs, at a minimum, quarters of work credit equal to the number of

years between 1950 and the year he reaches 65. So, if he reaches 65 in 1972, he needs at least 21 quarters of work credit—or 5 1/4 years."

A woman who reaches 65 in 1972 is eligible for retirement benefits if she has at least 18 quarters of social security work credit—4 1/2 years.

Eligible workers can begin collecting their full social security retirement benefits at 65 or reduced benefits at 62. Wives, young children, and dependent husbands can also get monthly social security payments based on the worker's benefit, the spokesman said.

"Quarters of work credit help to determine your eligibility for social security retirement benefits—but they do not affect the amount of your monthly check," the spokesman said. "The benefit amount is based on your average earnings in work covered by social security over a set period of time."

Social security now pays \$2 billion a month in cash retirement benefits to 17 million people—13 1/2 million retired workers and their families. The average monthly check to retired workers is \$136.

Nearly everyone 65 and over is eligible for Medicare, which is also administered by the Social Security Administration of the U. S. Department of Health, Education, and Welfare.

Supt. Dalton Gill attended the annual Texas School Administrators' Conference held in Austin earlier this month. Mr. Gill reports the workshop covered several aspects of school-related problems, with the primary concern over the three-panel federal judges' ruling concerning the unconstitutionality of the system used to distribute funds derived from ad valorem taxes. Sylvester

By MRS R M BABB

How about that 7 degrees one morning last week, cold wasn't it? And it has been cold ever since, but dry and the farmers are taking advantage of every minute of it.

Mrs. W. B. Brown is in Hamlin hospital, also Mrs. Floy McCright and I think that is all at the moment, however I do know some that have gone to see the Doctor and may be in the hospital by now.

Mrs. Neda Kiser was to have surgery in West Texas Medical Center in Abilene Monday afternoon.

Mr. and Mrs. Lovie Dickerson has moved to Sweetwater.

Mrs. Gladys Williams has entered a hospital in Lubbock — as yet I don't know which one, which one.

Mr. and Mrs. Thurman Douglass spent the weekend in Sweetwater in the home of their daughter, Mrs. Justiss.

Mr. and Mrs. R. M. Babb attended the Evangelism Conference in Ft. Worth Monday, Tuesday and Wednesday of last week. Does that explain why there wasn't a column in last weeks paper.

We were very pleased open the paper on Sunday and see a picture of Robert Scott and to note that he had been named the outstanding conservation farmer in the Upper Clear Fork and Water Conservation District for 1972. He is also interested in a feeder pig operation.

I have just had a report that Gladys Williams will soon be moving back to her daughters home in Meadow, she still would love hear from her friends.

Mr. John Hardwick and Miss Judy Sheridan were married Jan. 1, 1972, in Longview. They had visited here around Christmas when she met his family.

even in the daytime. The SMV emblem is additional to, not a substitute for, any other sign, light or flag required by law. It is, by law, placed not only on slow-moving tractors but also on any slow-moving towed vehicle, such as a cotton wagon.

Clayton suggests that farmers have several of the emblems on hand so that there is no need to transfer one from one vehicle to another. Also, this would avoid failing to use the emblem when in a hurry. The emblems are available at farm machinery houses.

Motorists should be aware of these triangular warnings and be prepared to adjust their speed, when one is spotted, to avoid accidents, Clayton adds.

Commissioners Grant Salary Increases

A ten percent pay increase for all Jones County employees was approved last Monday by county commissioners in a session which handled much first of the year business.

Routine new year business including naming County Judge Leon Thurman as purchasing agent; setting pickup allowance for commissioners at \$75; out of county travel allow \$980 a year and \$750 a year for the county agent and home demonstration agent.

The county tax collector was allotted \$20 a month for handling automobile registrations as in previous years. A salary increase was approved for the adult probation officer and his staff. This cost is shared with Taylor and Callahan counties.

Pay for jurors will remain at \$4 per day for those who are called but who do not serve and \$5 per day for those who serve. Bailiffs will receive \$7.50.

A grievance committee for

county employees as provided for in legislation passed this year, was named with Judge Thurman as chairman. Other members are Sheriff Woody Simmons, Tax Collector Louis Johnson, County Clerk Roy Thorn, District Clerk W. L. McDonald and County Attorney A. J. Smith Jr. Three citizens were selected by a drawing from the last grand jury panel. Names drawn were three women from Stamford — Mrs. Dave Walker, Mrs. Roy Moritz and Mrs. Glenn Lovvorn.

The new salary scale will bring commissioners salaries to \$554 a month. The sheriff, attorney, the two clerks and the tax collector will receive \$660. The tax collector receives \$20 additional. The county judge will receive \$721. County treasurer new salary will be \$605.

County road hands will now receive \$14.63 a day. Salaries of clerks in the court house varies

with the amount of time they have served and their responsibilities.

Although redistricting of the county was number 1 on the agenda, no action was taken.
